

SKETCH

- (A) Indicate direction of attack relative ship's head.
- (b) Show relative position of sun.
- (c) Indicate own maneuvers.

At left: Original sketch by John J. Crim, Officer-In-Charge of the LCT-325, showing the aircraft attack of 16 August, 1943 near Kolombangara Island in the Solomons. The original Action Report was hand-written and typed later. Both versions are from the National Archives. Below: LCT-325 at native village on Mono Island in October of 1943. Notice the smoke from a Japanese mortar attack on village which had been their headquarters before U.S. forces took the island.
